Accurate placement of gunshots for various species when emergency euthanasia is needed.

"Safety First"

**DOGS:**
Aim at intersection of imaginary lines crossing from ears to eyes, well up on forehead.

**CATS:**
Aim at intersection of imaginary lines crossing from ears to eyes, well up on forehead.

**CATTLE:**
Aim at the center of the head, 2/3 of the way up on the forehead. (Calves, slightly lower.)

**HORSES:**
Aim at intersection of imaginary lines crossing from ears to eyes, well up on forehead.

**SHEEP and RAMS (HORNE D):**
Approach from the rear. Aim between the horns, toward the mouth.

**SHEEP and RAMS (WITHOUT HORMS):**
Approach from the rear. Aim down on the top of the head, just back of the eyes.

**SWINE:**
Aim at the center of the head, approximately 1" above the level of the eyes.

**SHEEP and RAMS (WITH HORNS):**
Approach from the rear. Aim down on the top of the head, just back of the eyes.
